Vehicle fitting information

For Installation with 3-point-belt

Only suitable if the approved vehicles are fitted with 3 point with retractor safety-belts, approved to UN/ECE Regulation No. 16 or other equivalent standards.

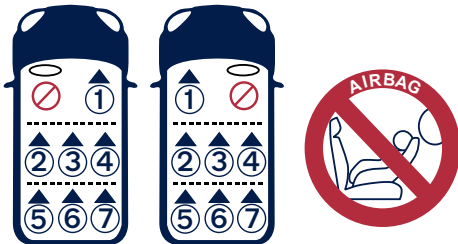

For Installation with ISOFIX System

This is an ISOFIX CHILD RESTRAINT SYSTEM. It is approved to Regulation NO. 44, 04 series of amendments for general use in vehicles fitted with ISOFIX anchorages systems.

It will fit vehicles with positions approved as ISOFIX positions (as detailed in the vehicle handbook), depending on the category of the child seat and of the fixture.

If in doubt, consult either the child restraint manufacturer or vehicle manufacturer.

This child restraint is classified for “Semi universal” use. It is suitable to fit into seat positions in most cars. The numbers on the diagram below correspond with the vehicle fitting positions listed in the following pages.

Before you purchase the vehicle, check that it is equipped with the appropriate anchorages.

ALWAYS give priority to the rear seats of your vehicle.

DO NOT fit your child restraint onto a vehicle seat fitted with an airbag, unless it can be, and is deactivated. Death or serious injuries can be caused by an activated AIRBAG system.

- Your child restraint can be fitted
- ✗ Your child restraint can not be fitted
- ⚡ Electric or hybrid vehicles
- 🚗 i-Size vehicles

SB! Vehicles with under floor storage boxes.

If your vehicle is not listed in this manual or it is not marked with either a • or ✗ then please refer to your vehicle’s handbook or contact the manufacturer for further information. Seat positions in other cars may also be suitable to accept the child restraint. If in doubt, consult either the child restraint manufacturer or the retailer.

The ISOFIX size class for which this device is intended is C and D.

Mass Group: 0+

Weight: Child weighing under 13kg (approximately 1.5 years old or under)
